Online Training with

SROI compares the net present value of benefits to the net present value of the resources invested, calculating the entire range of resulting values. It is a framework for measuring and calculating value concepts. It seeks to reduce inequality and environmental degradation and increase well-being by incorporating social, environmental and economic costs and benefits.

PROGRAM DETAILS

This two-days training will focus on skills with a workshop method to understand how to calculate SROI and how it can help manage the social value of a project in the form of measurable numbers.

ABOUT ESG ACADEMY

Soon every company must have sustainability strategy, otherwise they will be extinct. This is a challenging time in transformation of thought. Ideas like net zero, circular economy, re-generation, sustainable growth and business eco-system are helping all of us to re-evaluate, re-imagine and re-invent the future of our communities. Sustainability is the foundation for strategy, long-term growth, opportunity identification, and supporting dynamism within one's social-political-economic eco-system. ESG Academy is dedicated to helping everyone meet this challenge of change. ESG is the heart of sustainability.
