Greenhouse Gas (GHG)
Calculation, Mitigation, Audit and Reporting Training

DATE
7-8 October 2024

TIME
09.00 - 17.00 WIB

VENUE
Aston Priority & Conference Center
Simatupang, South Jakarta

Batch 08

INDONESIA

Due to Presidential Regulation No. 98 of 2021 and Law No. 16 of 2016, companies in Indonesia are increasingly aware of the importance of various reports related to environmental performance. One of the environmental performances that is an important concern of stakeholders is related to the significant contribution of company activities from various industrial sectors in emitting Greenhouse Gases (GHG), as a cause of climate change in the world.

So the GHG or Carbon Inventory & Mitigation

Report to meet customer requirements, government regulations or voluntary schemes for Carbon Trading (which refers to the GHG Protocol) should be an important concern of these companies.

For this reason, the ability to identify GHG sources and how to make and report on GHG emission calculations are today essential competencies to support change requirements and to respond to stakeholder concerns regarding company transparency in reporting related to GHG emissions and mitigation efforts.

PROGRAM DETAILS

This two day training will focus on skills with a workshop method to identify GHG sources, prepared GHG calculations, determine mitigation, assess GHG audit processes and learn to prepare reports that can meet stakeholder expectations.

TABLE CONTENT

Session 1	Climate Change and GHG Overview
Session 2	GHG Boundaries and Emission Sources
Session 3	GHG Calculation
Session 4	GHG Reporting
Session 5	GHG Mitigation
Session 6	GHG Audit

INSTRUCTORS

- **Randy Ismail** is a trainer with experience more than 23 years in the oil and gas, mining, forestry, plantation, pulp and paper, petrochemicals, chemicals, cement, fertilizers, energy, automotive, textile, electronics and food sectors in both Indonesia and Asia.

GHG TRAINING SYLLABUS

>> Identify sources and determine GHG emission boundaries.

>> Calculation, mitigation, and reporting methods.

>> GHG/Carbon Audit Method

>> Workshop on GHG calculation and reporting.

>> GHG mitigation and audit workshop.

ELIGIBLE PARTICIPANTS

HSE Supervisor/Manager; Environmental or Energy or Carbon or Sustainability Consultant/Auditor; Project Manager for the Carbon project; City/Regency/Province Office/Environmental Service.

ABOUT ESG ACADEMY

Soon every company must have sustainability strategy, otherwise they will be extinctic. This is a challenging time in transformation of thought. Ideas like net zero, circular economy, re-generation, sustainable growth and business eco-system are helping all of us to re-evaluate, re-imagine and re-invent the future of our communities. Sustainability is the foundation for strategy, long-term growth, opportunity identification, and supporting dynamism within one's social-political-economic eco-system. ESG Academy is dedicated to helping everyone meet this challenge of change. ESG is the heart of sustainability.
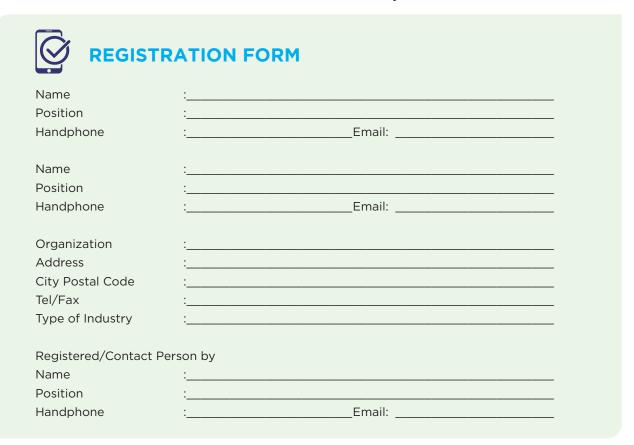

INVESTMENT
