Mastering Climate Risk Management: Aligning with IFRS S2.

Climate change is increasingly shaping business risks, regulatory expectations, and investor decision-making. With the introduction of IFRS S2, organizations are required to strengthen their climate-related risk management and disclosure practices. Companies must now systematically identify, assess, and report climate-related risks and opportunities to enhance transparency and long-term resilience.

This two-day training program is designed to equip professionals with practical knowledge and tools to align with IFRS S2 requirements. Participants will learn how to identify and map climate risks, conduct scenario analysis and stress testing, and develop effective net-zero strategies. Through interactive discussions, case studies, and hands-on exercises, the program ensures participants are prepared to integrate climate risk management into strategic and financial decision-making.

PROGRAM DETAILS

This training is designed to address IFRS S2 requirements, with a focus on risk mapping, scenario analysis, stress testing, and setting net-zero targets.

TABLE OF CONTENT

Day
01

Foundations of Climate Risk and IFRS 2

- ✓ **Session 1 & 2:** Introduction to Climate Change and Financial Risk
- ✓ **Session 3:** Climate Risk Identification and Assessment
- ✓ **Session 4:** Climate Risk Mapping

Day
02

Climate Scenario Analysis, Stress Testing, and Net- Zero Strategies

- ✓ **Session 5:** Climate Scenario Analysis: Introduction and Methodologies
- ✓ **Session 6:** Climate Scenario Analysis and Stress Testing: Practical Application
- ✓ **Session 7:** Setting Net-Zero Emission Targets
- ✓ **Session 8:** Developing and Implementing Net-Zero Strategies

LEARNING OBJECTIVES

- >> Understand the requirements of IFRS S2 related to climate risks and opportunities.
- >> Develop skills in climate risk identification, assessment, and mapping.
- >> Gain practical experience in using climate scenario analysis and stress testing.
- >> Learn how to develop and implement net-zero emission strategies.

ELIGIBLE PARTICIPANTS

Professionals in finance, accounting, sustainability, risk management, and strategy roles responsible for IFRS S2 reporting and climate-related decision-making.

INSTRUCTORS

1. **Dr. (Hon) Ali Darwin, Ak., MSc., CSRA, CSP**
Executive Director, NCCR (Course Leader).
2. **Nora Sri Hendriyeni Ph.D., CA., CACP., CSRA., CSP**
Executive Director, ESG Academy.
3. **Randy Ismail**
Expert with over 20 years across various sectors throughout Asia.

COURSE MATERIALS

- Comprehensive course manual with key concepts, methodologies, and case studies.
- Templates and tools for climate risk mapping, scenario analysis, and net-zero target setting.

The National Center for Corporate Reporting (NCCR) is an independent organization which promotes and disseminates GRI Standards in the region. NCCR is an Organizational Stakeholder of the GRI since 2006 and a GRI certified training partner in Indonesia, Malaysia, Singapore and the Philippines since 2011.

Soon every company must have sustainability strategy, otherwise they will be extinctic. This is a challenging time in transformation of thought. Ideas like net zero, circular economy, re-generation, sustainable growth and business eco-system are helping all of us to re-evaluate, re-imagine and re-invent the future of our communities. Sustainability is the foundation for strategy, long-term growth, opportunity identification, and supporting dynamism within one's social-political-economic eco-system. ESG Academy is dedicated to helping everyone meet this challenge of change. ESG is the heart of sustainability.
